

ADMISSIONS

Most people looking for a day habilitation program come to Chimes after funding has been approved by the applicable funding agency. We are happy to have a preliminary discussion with anyone who is interested in our services and we will assist with the application process. Where necessary, we will also help to get funding approved.

Chimes welcomes inquiries and visits from families, caregivers, case managers and advocates looking for the right day program. To schedule a tour or obtain more information, please call our Admissions Coordinator at 410-358-6661.

Chimes day program is funded and licensed by the state of Maryland.

Chimes, its subsidiaries and affiliates, do not discriminate in the provision of services to persons served and are equal opportunity employers as stated in the Chimes Policy on Non-discrimination in accordance with all federal, state and local laws.

Chimes Maryland
Day Habilitation
Services: Intervals

Day Habilitation

Chimes Maryland provides day habilitation services to adults with intellectual and developmental disabilities, many of whom have significant and multiple disabilities that require an alternative option to vocational services. Intervals is located in Baltimore City and is fully accessible and located within easy access to a wide variety of community venues. A wheelchair garden, courtyard

and outdoor recreation area offer additional opportunities for our participants to relax and enjoy special events. Our program is open five days a week and provides the participants with meaningful, constructive and enjoyable activities that enable them to enhance their skills, develop meaningful relationships, and engage in new experiences.

Services And Activities

Our day program provides a full range of services and activities that are flexible and responsive to the people we support. Each participant has an Individual Plan that is person centered and directed, with outcomes designed to meet the person's needs, preferences and goals. While each person's Plan is different, participants have the opportunity to engage in structured activities and supports that are designed to address and enhance

mobility, communication, self care, socialization and leisure skills. A multi-sensory stimulation room is also available, which provides a soothing combination of gentle sound, scent, color and light to help people relax while enjoying the environment.

A stimulating slate of diverse activities is offered daily and may include music, arts and crafts, invited performers on site, holiday parties and excursions throughout the community. Field trips into the community may include visits to parks, shopping malls, museums, libraries, the inner harbor in Baltimore, local area attractions and special events.

Adjunctive supports are also available to address physical health, mental health and behavioral needs through collaboration and coordination with our Clinical and Nursing/Health Services Departments.

Wellness Movement Program

therapy sessions based on the person's needs. Individuals are recommended

This is a therapeutic program offered in collaboration with Next Movement, Inc. and is designed to increase movement, strengthen individuals' limbs, hands, feet and neck, and improve sitting and standing posture. The program is conducted on-site and includes physical therapy and occupational therapy assessments and on-going weekly

for this program through their primary care practitioner. Next Movement works directly with insurance companies, so there is little or no out-of-pocket expenses for the participant. The Team of certified professional therapists conduct range of motion exercises, training in weight bearing, gait training and transfer skills. Next Movement also assists participants in acquiring supportive devices and/or equipment based on individual needs. Additionally, therapists work with staff to enable them to incorporate the skills that participants are learning into everyday activities.

Caring Trained Professionals

Chimes ensures that each person served in our day program receives the type of support that is specific to his or her needs and preferences. Our staff of professionals is specially trained to work with our participants and they receive continuous training in the application of best practices to promote the highest quality of care. Staff includes: Direct Support Professionals, Psychology Associates, Nurses, Case Managers and Program Managers.

Chimes also utilizes and/or coordinates with an array of licensed professionals in community practice to support our participants such as physicians, nutritionists and specialty therapists.
